

# GFS G M (3000 / 6000 PSI)

Contrabrida roscada macho SAE, BSP

**HANSA FLEX**

## Características

|                             |  |
|-----------------------------|--|
| Norma                       | SAE J 518 C<br>ISO 6162                |
| Forma constructiva          | recto                                  |
| Construcción                | Contrabrida roscada SAE                |
| Fijación                    | Rosca interior para tornillos métricos |
| Volumen de suministro       | sólo brida                             |
| Material                    | S355J2G3 (ST52.3)                      |
| Protección de la superficie | negro lubricado                        |

## Nota

La presión de servicio máxima indicada se refiere a la brida. La presión de servicio efectiva la determina el espesor de pared y la calidad del tubo.
