

### Características

|                                    |                                                     |
|------------------------------------|-----------------------------------------------------|
| <b>Conexión 1</b>                  | Roscas exteriores BSP cilíndricas                   |
| <b>Forma de obturación 1</b>       | Junta de estanqueidad                               |
| <b>Conexión 2</b>                  | Rosca exterior métrica, cilíndrica                  |
| <b>Forma de obturación 2</b>       | Cono interior de 24°                                |
| <b>Construcción</b>                | Racor giratorio sin estrangulación                  |
| <b>Forma constructiva</b>          | Ángulo de 90°                                       |
| <b>Norma</b>                       | DIN 2353<br>ISO 8434-1                              |
| <b>Volumen de suministro</b>       | Tubuladura (sin tuerca de racor ni anillo cortante) |
| <b>Material</b>                    | Acero                                               |
| <b>Protección de la superficie</b> | con revestimiento galvanizado                       |

### Nota

Para obtener información acerca del montaje, la instalación, la carga de presión y las temperaturas de servicio admisibles, consulte la Información técnica de los racores de tubo.

### Artículo

| Denominación      | Serie | Presión de servicio en bar | Ø d2 (mm) | G            | Ø D (mm) | i (mm) | L1 (mm) | L2 (mm) | L4 (mm) | L7 (mm) | SW (mm) | S1 |
