

### Características

|                             |                                  |
|-----------------------------|----------------------------------|
| Conexión 1                  | Rosca exterior UN/UNF            |
| Forma de obturación 1       | Cono exterior 74°                |
| Conexión 2                  | Roscas interiores NPT            |
| Forma de obturación 2       | obturación de rosca              |
| Construcción                | Tubuladura roscada racor de paso |
| Forma constructiva          | recto                            |
| Material                    | Acero                            |
| Protección de la superficie | con revestimiento galvanizado    |
