

# ESK M

Abrazadera para tubos flexibles, serie Mini

**HANSA FLEX**

## Características

|                         |                                |
|-------------------------|--------------------------------|
| Construcción            | Abrazadera con tornillo tensor |
| Suplemento construcción | Tornillo hexagonal con ranura  |
| Material                | Acero fino 1.4301              |

## Artículo

| Denominación | Rango de tensión (mm) | Ancho de cinta (mm) |
|--------------|-----------------------|---------------------|
| ESK 06-08 M  | 6,5 - 8,0             | 9,0                 |
| ESK 07-09 M  | 7,0 - 9,0             | 9,0                 |
| ESK 08-10 M  | 9,0 - 10,0            | 9,0                 |
| ESK 09-11 M  | 9,5 - 11,0            | 9,0                 |
| ESK 10-12 M  | 10,5 - 12,0           | 9,0                 |
| ESK 11-13 M  | 11,5 - 13,0           | 9,0                 |
| ESK 12-14 M  | 12,5 - 14,0           | 9,0                 |
| ESK 13-15 M  | 13,5 - 15,0           | 9,0                 |
| ESK 14-16 M  | 14,0 - 16,0           | 9,0                 |
| ESK 15-17 M  | 15,0 - 17,0           | 9,0                 |

## Accesorios

|             |                          |
|-------------|--------------------------|
| SCHRAUBENDR | Destornillador, flexible |
|-------------|--------------------------|
