

INDU WAS SD

Tubo flexible de agua a presión para aspiración

HANSA FLEX

Características

| | |
|----------------------------|--|
| Campo de aplicación | Sistemas presión y aspiración de baja presión Sector industrial y de construcción |
| Norma | ISO 1307 |
| Capa interna | El Goma natural y sintético |
| Inserción | capa textil sintética de alta resistencia a la rotura y espiral de alambre de acero |
| Capa externa | Goma sintética |
| Color | negro |
| Temperatura min. | -25 °C |
| Temperatura max. | 70 °C |
| Medios | Agua |

Artículo

| Denominación | Pulgadas | Ø interior (mm) | Ø exterior (mm) | Espesor de la pared (mm) | Presión de servicio (bar) | Presión de rotura (bar) | Vacío (bar) | Radio mín. de flexión (mm) | Longitud rollo (m) |
|----------------------|----------|-----------------|-----------------|--------------------------|---------------------------|-------------------------|-------------|----------------------------|--------------------|
