

# K-PUR-BREMSSPIRALE

PUR brake coil with connection

**HANSA FLEX**

## Características

|                         |   |
|-------------------------|---|
| <b>Conexión 1 + 2</b>   | Rosca exterior métrica, cilíndrica  |
| <b>Norma</b>            | tested in accordance with<br>DIN 74323<br>DIN 74324<br>ISO 7268-2<br>ISO 7375-2<br>DIN 73378<br>DIN 74310-2 |
| <b>Homologación</b>     | German Technical Surveyance Association (TÜV)-<br>type approved (Certificate R 9910199)                     |
| <b>Temperatura min.</b> | -40 °C  |
| <b>Temperatura max.</b> | 90 °C   |
| <b>Material</b>         | PUR   |

## Información adicional

- will not break at fittings
- excellent antikink characteristics – kinking leaves no defects
- longer operation length
- highly resistant to tearing off at fittings
- excellent springback characteristics
- unplasticized so no embrittlement
- resistant to oil and grease
- resistant to UV and ozon
- service life many times longer than conventional coil tubing

## Artículo

| Denominación   | G1 + G2    | Ø interior (mm) | Ø exterior (mm) | Espesor de la pared (mm) | Longitud (m) | Color    |
|----------------|------------|-----------------|-----------------|--------------------------|--------------|----------|
| K- 07 10 13 21 | M 16 x 1,5 | 8,0             | 12,0            | 2,0                      | 4,50         | negro    |
| K- 07 10 13 22 | M 16 x 1,5 | 8,0             | 12,0            | 2,0                      | 4,50         | amarillo |
| K- 07 10 13 23 | M 16 x 1,5 | 8,0             | 12,0            | 2,0                      | 4,50         | rojo     |
| K- 07 10 13 24 | M 16 x 1,5 | 8,0             | 12,0            | 2,0                      | 5,50         | negro    |
