

# K-DRV ABLD SCHNVERSCHR C RAENDEL

Unidirectional flow control valves, outgoing air restriction (»C«), quick-lock screw fitting

**HANSA FLEX**

## Características

|  |                                    |
|--|------------------------------------|
| Presión de servicio                        | máx. 10 bar                        |
| Rango de temperatura                       | 0 °C to +70 °C                     |
| Tomillo hueco, brazo glr., torn. regulador | Nickel-plated brass                |
| Piezas int.                                | Brass with a bare metal surface    |
| Junta labial anillo tórico                 | NBR                                |
| Juntas (imperdibles)                       | Polyamide (glass fibre-reinforced) |

## Nota

Otras especificaciones a petición.

## Descripción

For fine regulation of a cylinder piston speed and precise control of flow rates. Designed as a banjo-type valve with a hollow bolt and ring piece. Can be screwed directly onto the valve or cylinder. Compact type of construction, also ideal where space is restricted. On the version with a knurled screw, the set volumetric flow rate can be locked with the hexagon nut to obtain a fixed setting.
