

# K-FLACHDUESE LAERMARME M

Low-noise flat nozzles, M12x1.25 connection

**HANSA FLEX**

## Características

**Material** Latón niquelado

## Nota

For noise, air consumption and blowing force values, see diagrams 1-17 in the technical information.

## Descripción

If correctly designed, these noise-reducing nozzles guarantee a lower noise level than conventional one-hole types with an identical blowing force. They are usually fitted with a noise-reducing plastic insert and they are recommended by the German BGIA (Institute for Occupational Safety and Health).
