

## Características

|                                 |   |
|---------------------------------|---|
| Construcción                    | Extractor   |
| Velocidad de deslizamiento max. | 4,0 m/s   |
| Temperatura min.                | -40 °C  |
| Temperatura max.                | 110 °C  |
| Medios                          | aceite mineral  |
| Montaje                         | Dar forma de riñón e introducir en la ranura de admisión            |
| Aplicación                      | For the usage at higher pollution, for e.g.:<br>Mining<br>foundries |
| Material                        | PU 93° Shore A  |
