

| Caractéristiques | | | | | | |
|-------------------|------------------------------|--|--|--|--|--|
| Caractéristiques | Dureté : environ 77° Shore A | | | | | |
| Couche intérieure | PVC mou | | | | | |
| Revêtement | aucune | | | | | |
| Couche extérieure | PVC mou | | | | | |
| Couleur | clair | | | | | |
| Température min. | -5 °C | | | | | |
| Température max. | 60 °C | | | | | |
| Médiums | Eau Air | | | | | |

Remarque

Les indications de pression se réfèrent à des mises en pression de courte durée sans coup de bélier à +20 °C.
