

INDU WAS SD

Tuyau d'aspiration et de refoulement d'eau

HANSA FLEX

Caractéristiques

| | |
|-----------------------|----------------------------------------------------------------------------------------|
| Domaine d'utilisation | systèmes d'aspiration et de refoulement basse pression Industrie et BTP |
| Norme | ISO 1307 |
| Couche intérieure | Caoutchouc naturel et synthétique |
| Revêtement | armature textile synthétique à haute résistance à l'abrasion et spirale en fil d'acier |
| Couche extérieure | caoutchouc synthétique |
| Couleur | noir |
| Température min. | -25 °C |
| Température max. | 70 °C |
| Médiums | Eau |

Article

| Désignation | Pouce | Ø intérieur (mm) | Ø extérieur (mm) | Épaisseur de paroi (mm) | Pression de service (bar) | Pression d'éclatement (bar) | Vide (bar) | Rayon de courbure min. (mm) | Longueur des rouleaux (m) |
