

# K-INLINE-DRG AG IG O SEKUNDAERENTLU

Inline pressure regulators, non-self-relieving

**HANSA FLEX**

## Caractéristiques

Pression de service	max. 18 bar
Plage de température	0 °C to +60 °C
Tolérance de pression	± 0.3 bar at 10 l/min
Boîtier	Zinc
autres pièces	Brass, NBR, stainless steel

## Remarque

Autres informations sur demande.

## Description

This single-acting diaphragm regulator can be installed in any pneumatic system. Since the pressure is preset in the factory and cannot be altered, the product is also tamper-proof. We recommend mounting the regulator directly on the tool to make sure the correct pressure is applied. In this case, the tool is never stressed by the higher pressure of the supply system and is protected against pressure fluctuations in hoses, pipes, etc. Energy efficiency and economic efficiency can be achieved by using an inline pressure regulator.
