

K-WV 3/2 5/2 NAMUR

3/2 and 5/2-way spool valves

HANSA FLEX

Caractéristiques

Médiums	Air, neutral gases (filtered)
Pression différentielle	2 - 10 bar
Pression statique admissible	Max. 10 bar
Température de service	-25 °C to +60 °C
Raccord électrique	Connector socket Pg 9P, 3 x DIN 46244 / VDE 0580
Boîtier	Aluminium, anodised black
Matériau étanche	NBR and PUR

Remarque

Autres informations sur demande.

Description

Pilot-operated 3/2 and 5/2-way spool valves with threaded port connections and a NAMUR style interface. The two conversion plates supplied with each valve allow the device to be adapted to a 3/2-way or 5/2-way function. The valve is turned on by a continuous signal. Turning off causes the piston to be returned to its initial position under pressure. Includes a manual operator as standard.
