

# K-FI AK KOH PC-BEHÄEL S MULTIFIX

Activated carbon filters with polycarbonate bowl and bowl guard

**HANSA FLEX**

## Caractéristiques

|                              |   |
|------------------------------|---|
| Pression d'entrée            | Max. 16 bar                               |
| Température de fluide        | max. 60 °C                                |
| Température ambiante         | Max. 60 °C                                |
| Matériau étanche             | NBR                                       |
| Élément filtrant             | Activated carbon-POM                      |
| Boîtier                      | Die-cast zinc                             |
| Drain valve                  | Semi-automatic                            |
| Teneur résiduelle en huile   | 0.005 mg/m <sup>3</sup>                   |
| Mesure de la valeur du débit | FA at P1 = 6 bar and $\Delta p = 0.2$ bar |

## Remarque

Autres informations sur demande.

## Description

Micro-filters for compliance with strict compressed air purity requirements. Suitable for all applications where standard filters do not afford the desired efficiency.
