K-INLINE-DRG IG WASSER O SEKUNDAER

Inline pressure regulators, for water applications

Caractéristiques

Pression de service	maxi 10 bar
Plage de température	0 °C to +60 °C
Débit	4000 ml/min with 0.8 bar pressure loss
Boîtier	Nickel-plated brass
autres pièces	CR, stainless steel

Remarque

Autres informations sur demande.

Description

This water regulator is designed as a single-acting diaphragm regulator for installation in any water pipe system. It supplies a precise output value regardless of the input pressure. Since the pressure is preset in the factory and cannot be altered, the product is also tamper-proof.
The regulator protects all downstream devices and components in the water pipe by maintaining a required constant pressure and preventing system pressure fluctuations. In combination with a nozzle, it is ideally suited for cooling or cleaning with water spray or mist.
