

### Karakteristike

|                              |   |
|------------------------------|---|
| <b>Priključci</b>            | Oil side type A - female thread                                 |
| <b>Izvedba</b>               | Ugradni položaj prvenstveno okomiti, strana s plinom prema gore |
| <b>Radni tlak</b>            | maks. 350 bara  |
| <b>Temperaturno područje</b> | tip 1: od -10 °C do +80 °C<br>tip 2: od -30 °C do +110 °C       |
| <b>Materijal</b>             | Membrana: NBR standardna izvedba<br>tip 2: membrana ECO         |

### Napomena

Betriebsdruck 100 bis 350 bar, min. Betriebsdruck muss 10 % über Gasfülldruck liegen, max. Gasfülldruck 130 bar  
CE oznaka za membranski spremnik >1,0 l volumen plina

### Napomene uz narudžbu

Spremnici tlaka isporučuju se iz skladišta nenapunjeni. Za punjenje N2 po želji kupca nastaju zasebni troškovi.
