

K-KONDENSA DRUKODRAIN PLUS

Drain for compressed air condensate

HANSA FLEX

Karakteristike

Priključna snaga filtra 100 m³/min

Priključna snaga kompresora 10 m³/min

Priključna snaga sušača 20 m³/min

Napomena

Opis

Compact and exceptionally reliable, level-controlled drain for compressed air condensate. The condensate enters the integrated collecting tank, in which the level is continuously monitored. When the condensate reaches the maximum mark, the pilot valve opens and the condensate is forced into the discharge line by the system pressure. The valve closes again when the level reaches the minimum mark. Benefits of »drukodrain plus«: No pressure loss, Diaphragm protected by integrated cup filter, Test button for manual outlet, Auto-reset function, Suitable for all condensate types.

Napomene uz narudžbu

The following voltages on request: 24 VDC, 24 VAC DC, 24 VAC / 50 Hz, 110 VAC / 50 Hz, 115 V / 50 Hz
