

# K-DRV GEW V RAENDEL

Unidirectional flow control valves, incoming air restriction (»V«), screw connection

**HANSA FLEX**

## Karakteristike

|   |                                    |
|---|------------------------------------|
| Radni tlak  | maks. 10 bar                       |
| Temperaturno područje                             | 0 °C to +70 °C                     |
| Šuplji vijak, zakretni krak, vijak za reguliranje | Nickel-plated brass                |
| Unutarnji dijelovi                                | Brass with a bare metal surface    |
| Brtvena usna O-prsten                             | NBR                                |
| Brtve (sa zaštitom od ispadanja)                  | Polyamide (glass fibre-reinforced) |

## Napomena

Drugi podatci na zahtjev.

## Opis

For fine regulation of a cylinder piston speed in the forward and return motion and precise control of flow rates. Designed as a banjo-type valve with a hollow bolt and ring piece. Can be screwed directly onto the valve or cylinder. Compact type of construction, also ideal where space is restricted. On the version with a knurled screw, the set volumetric flow rate can be locked with the hexagon nut to obtain a fixed setting.
