

# K-DRV GEW V RAENDEL

Unidirectional flow control valves, incoming air restriction (»V«), screw connection

**HANSA FLEX**

## Tulajdonságok

|  |                                    |
|--|------------------------------------|
| Üzemi nyomás                                 | max. 10 bar                        |
| Hőmérséklettartomány                         | 0 °C to +70 °C                     |
| Öreges csavar, forgatókar, szabályozó csavar | Nickel-plated brass                |
| Belső alkatrészek                            | Brass with a bare metal surface    |
| Ajakos tömítés O-gyűrű                       | NBR                                |
| Tömítések (nem leeső)                        | Polyamide (glass fibre-reinforced) |

## Leírás

For fine regulation of a cylinder piston speed in the forward and return motion and precise control of flow rates. Designed as a banjo-type valve with a hollow bolt and ring piece. Can be screwed directly onto the valve or cylinder. Compact type of construction, also ideal where space is restricted. On the version with a knurled screw, the set volumetric flow rate can be locked with the hexagon nut to obtain a fixed setting.
