

# K-INLINE-DRG AG IG O SEKUNDAERENTLU

Inline pressure regulators, non-self-relieving

**HANSA FLEX**

## Caratteristiche

Pressione d'esercizio	max. 18 bar
Campo della temperatura:	0 °C to +60 °C
Tolleranza pressione	± 0.3 bar at 10 l/min
Alloggiamento	Zinc
altri componenti	Brass, NBR, stainless steel

## Nota

Altri dati su richiesta.

## Descrizione

This single-acting diaphragm regulator can be installed in any pneumatic system. Since the pressure is preset in the factory and cannot be altered, the product is also tamper-proof. We recommend mounting the regulator directly on the tool to make sure the correct pressure is applied. In this case, the tool is never stressed by the higher pressure of the supply system and is protected against pressure fluctuations in hoses, pipes, etc. Energy efficiency and economic efficiency can be achieved by using an inline pressure regulator.
