

# K-WV 3/2 5/2 NAMUR

3/2 and 5/2-way spool valves

**HANSA FLEX**

## Caratteristiche

|                                  |  |
|----------------------------------|--|
| <b>Mezzi</b>                     | Air, neutral gases (filtered)                    |
| <b>Pressione differenziale</b>   | 2 - 10 bar                                       |
| <b>pressione statica ammessa</b> | Max. 10 bar                                      |
| <b>Temperatura d'esercizio</b>   | -25 °C to +60 °C                                 |
| <b>Collegamento elettrico</b>    | Connector socket Pg 9P, 3 x DIN 46244 / VDE 0580 |
| <b>Alloggiamento</b>             | Aluminium, anodised black                        |
| <b>Materiale di tenuta</b>       | NBR and PUR                                      |

## Nota

Altri dati su richiesta.

## Descrizione

Pilot-operated 3/2 and 5/2-way spool valves with threaded port connections and a NAMUR style interface. The two conversion plates supplied with each valve allow the device to be adapted to a 3/2-way or 5/2-way function. The valve is turned on by a continuous signal. Turning off causes the piston to be returned to its initial position under pressure. Includes a manual operator as standard.
