Descrizione

Diaphragm pressure regulators with self-relieving design for mounting side by side. The pressure setting can be locked by pushing the knob down.
By assembling two or more controllers together, it is possible to supply several working air circuits with different output pressures via a single supply line.

Avvertenza per l'ordinazione

The port for the output pressure (P2) is on the rear! K-07250031: G 1/4, K-07250034: G 1/2. Lockable pressure regulators K-07250030 available on request.
