## Aprašas

Blue polyurethane hose with an outer sheath made of black synthetic resin material. This sheath protects the inner PU tube from welding sparks. The sheath is not attached to the inner tube and can therefore be easily removed to enable conventional fittings to be installed. Protects against welding sparks, extremely flexible and non-kinking, resistant to a large number of chemicals, oils, greases, acids, bases, heat, ageing, UV light.

## Prekė

Pavadinimas	Žarnos Ø viduje (mm)	Žarnos Ø išorėje (mm)	Sieneles storis (mm)
