

# PHY 100

Saspiežama aptvere, NY 100

**HANSA FLEX**

## Īpašības

|                     |                         |
|---------------------|-------------------------|
| letvara veids       | Nenolobāmā aptvere      |
| Materiāls           | Tērauds                 |
| Virsmas aizsardzība | galvaniskais pārklājums |

## Izstrādājums

| Apzīmējums | DN* | Izmērs | Collas | D1<br>(mm) | D3<br>(mm) | LF<br>(mm) |
|------------|-----|--------|--------|------------|------------|------------|
| PHY 104    | 5   | 3      | 3/16"  | 16,0       | 9,5        | 28,0       |
| PHY 106    | 6   | 4      | 1/4"   | 19,0       | 11,6       | 29,5       |
| PHY 108    | 8   | 5      | 5/16"  | 22,0       | 12,7       | 29,5       |
| PHY 110    | 10  | 6      | 3/8"   | 23,0       | 14,3       | 32,8       |
| PHY 113    | 12  | 8      | 1/2"   | 26,0       | 18,6       | 34,0       |
| PHY 116    | 16  | 10     | 5/8"   | 30,0       | 22,0       | 36,5       |
| PHY 120    | 19  | 12     | 3/4"   | 33,0       | 25,7       | 41,0       |
| PHY 125    | 25  | 16     | 1"     | 40,0       | 31,8       | 41,0       |

DN = nominālais diametrs, nominālais platums
