

# K-TR PVC SPEZIAL

Special PVC pneumatic hose

**HANSA FLEX**

## Īpašības

|                            |                                    |
|----------------------------|------------------------------------|
| Ekspluatācijas temperatūra | no -10 °C līdz +60 °C              |
| Krāsa                      | zils                               |
| Materiāls                  | PVC with integrated special fabric |
| Rulļa garums               | 50 m                               |

## Norāde

Citi dati pieejami pēc pieprasījuma.

## Apraksts

Flexible, high-quality, PVC hose with a smooth inner layer and braiding made of special impregnated fabric, suitable for high pressures. Largely resistant to salt solutions, diluted acids and alkaline solutions, greases and mineral oils.

## Izstrādājums

| Apzīmējums     | Ø šļūtenei iekšpusē<br>(mm) | Ø šļūtenei ārpusē<br>(mm) | Ekspluatācijas spiediens 20°C (stat.)<br>(bar) |
|----------------|-----------------------------|---------------------------|--|
