

# K-DMUF GENAUIGHEIT 0,2%

Pressure transmitters, accuracy 0.2% of span

**HANSA FLEX**

## Eigenschappen

|   |  |
|---|--|
| Type  | S-10   |
| Spanning                                    | Non-stabilised 10/30 V DC voltage                      |
| Elektrische aansluiting                     | With right-angle connector acc. to DIN EN 175301-803 A |
| Beschermingsklasse                          | IP 65 acc. to EN 60529                                 |
| Uitgangssignaal                             | 4 to 20 mA, 2-wire                                     |
| Niet-lineariteit                            | 0.2% of span   |
| Mediumtemperatuur                           | -30 °C to +100 °C                                      |
| Omgevingstemperatuur                        | -20 °C to +80 °C                                       |
| Met meetstof in aanraking zijnde onderdelen | CrNi steel 1.4571                                      |
| Behuizing                                   | CrNi steel 1.4571                                      |

## Beschrijving

Standard type for universal applications. Suitable for electronic pressure measurements in the low and high-pressure ranges.

## Extra informatie

Further measuring ranges on request

Pressure converter with flush-mounted membrane for measuring highly viscous and crystalline media on request.
