

Właściwości

| | |
|------------------------|-----------------------------------|
| Przyłącze 1 | Gwint zewnętrzny BSP cylindryczny |
| Rodzaj uszczelnienia 1 | forma B |
| Przyłącze 2 | gwint wewnętrzny BSP cylindryczny |
| Typ konstrukcji | redukcja zmienna |
| Kształt | długi |
| Norma | DIN 2353 ISO 8434-1 |
| Materiał | stal |
| Ochrona powierzchni | galwanizowany |

Wskazówka

Wskazówki do montażu, zabudowy, obciążalności ciśnieniowej i dopuszczalnych temperatur roboczych są zawarte w Informacjach Technicznych dwuzłączek rurowych.

Artykuł

| Oznaczenie | Ciśnienie robocze bar | $\varnothing d1$ (mm) | G1 | G2 | $\varnothing d3$ (mm) | i1 (mm) | i2 (mm) | L (mm) | SW (mm) |
