

Características						
Campo de aplicação	Mangueira de baixa pressão para linhas de combustível					
Norma	DIN 73379					
Camada interna	borracha sintética resistente ao óleo					
Reforço	um reforço trançado têxtil e um reforço trançado em fio de aço galvanizado					
Camada externa	sem					
Cor	metálico					
Temperatura min.	-35 °C					
Temperatura max.	80 °C					
Fluidos	Combustíveis de ciclo Otto Diesel Petróleo bruto Óleo lubrificante					

DN*	Polegada	Tamanho	Ø interno	Ø externo	Pressão operacional	Pressão de ensaio	Pressão de ruptura	Raio de curvatura mín.
