

## Características

<b>Tipo</b>	Raspador
<b>Velocidade de deslizamento max.</b>	0,5 m/s
<b>Temperatura min.</b>	-30 °C
<b>Temperatura max.</b>	100 °C
<b>Fluidos</b>	Óleos minerais Emulsões de água
<b>Montagem</b>	encaixado em uma ranhura aberta
<b>Material</b>	(1) Conexões: Aço (2) Raspador: 90° Shore A NBR
<b>Aplicação</b>	Hidráulica

Toleranz / Tolerance		
d	D	L
h11	H8	+0,20 0

## Descrição

Necessita de pouco espaço  
Sem entrada de sujeira através do anel metálico exterior.  
Solução simples.

## Instruções de encomenda

Em condições especiais de utilização (líquido, temperatura, pressão ...) entre em contato conosco.  
Outro material disponível: FPM.
