

K-WASSERSACKROHR U SCHWEISSANSCHL

Siphons, U-shaped, with welded connection on pressure tap side

HANSA FLEX

Características

Modelo	With male connector or welded connection on the pressure tap side
Remoção de pressão	Horizontal (U-shaped), Vertical (circular)
Luva de aperto	Acc. to DIN 16283, AF 27
Material	Aço ou aço inoxidável

Nota

Outras indicações a pedido.

Descrição

Suitable as a cooling section for liquids, gases or steam during pressure measurements. The use of a siphon permits the medium to cool down to a temperature that is compatible with the pressure gauge and protects the gauge against pulsating media. The condensate that forms in the siphon prevents the hot medium from entering the pressure gauge. We recommend filling the siphon with cooling sealing liquid prior to using the pipe.
