

# K-DRUCKSCHALTER VAKUUM

Combined vacuum/pressure switch

**HANSA FLEX**

## Características

|                           |   |
|---------------------------|---|
| Tipo                      | PNP                                     |
| Conexão Fluido de medição | G 1/8 male and M 5 female               |
| Histerese                 | Adjustable: 3 to 25% of set value       |
| Faixa de temperatura      | 0 - 50 °C                               |
| Fluidos                   | Non-aggressive gases. dry, oil-free air |
| Carcaça                   | Polycarbonate                           |
| Sinal de saída            | Analogue: 1 to 5 V                      |
| Conexão elétrica          | Male connector M8, four pin             |
| Capacidade de comutação   | 125 mA                                  |
| Consumo de corrente       | 30 mA                                   |
| Indicador de estado       | LED                                     |

## Nota

Outras indicações a pedido.

## Descrição

Universal electronic vacuum and pressure switch for safety monitoring, optimisation of cycle times and regulation circuits. Its small size and low weight permit installation directly at the point of use. Suitable for all special applications in the vacuum and compressed air sectors. Adjustable vacuum limit value and continuous vacuum monitoring.

## Artigo

| Descrição      | G1 Externa | G2 Interna | G3 Externa | L<br>(mm) | L1<br>(mm) | Faixa de medição | Tensão         |
|----------------|------------|------------|------------|-----------|------------|------------------|----------------|
| K- 07 45 01 31 | G 1/8      | M 5        | M 8 x 1    | 44,0      | 62,0       | -1 bis +10 bar   | 10.8 - 30 V DC |
