

K-WV 3/2 5/2 NAMUR

3/2 and 5/2-way spool valves

HANSA FLEX

Características

| | |
|----------------------------|--|
| Fluidos | Air, neutral gases (filtered) |
| Pressão diferencial | 2 - 10 bar |
| Pressão estática permitida | Max. 10 bar |
| Temperatura operacional | -25 °C to +60 °C |
| Conexão elétrica | Connector socket Pg 9P, 3 x DIN 46244 / VDE 0580 |
| Carcaça | Aluminium, anodised black |
| Material de vedação | NBR and PUR |

Nota

Outras indicações a pedido.

Descrição

Pilot-operated 3/2 and 5/2-way spool valves with threaded port connections and a NAMUR style interface. The two conversion plates supplied with each valve allow the device to be adapted to a 3/2-way or 5/2-way function. The valve is turned on by a continuous signal. Turning off causes the piston to be returned to its initial position under pressure. Includes a manual operator as standard.
