## Unidirectional flow control valves

### Características

|                         |             |
|-------------------------|-------------|
| Pressão operacional     | máx. 10 bar |
| Temperatura operacional | max. +70 °C |
| Material de vedação     | NBR         |
| Carcaça                 | Alu eloxed  |
| Peças interiores        | Brass       |

### Nota

Outras indicações a pedido.

### Descrição

These valves are restricted in the flow direction and have free passage in the opposite direction.
