

# K-INLINE-DRG IG WASSER O SEKUNDAER

Inline pressure regulators, for water applications

**HANSA FLEX**

## Características

|                      |  |
|----------------------|--|
| Pressão operacional  | máx. 10 bar                            |
| Faixa de temperatura | 0 °C to +60 °C                         |
| Fluxo                | 4000 ml/min with 0.8 bar pressure loss |
| Carcaça              | Nickel-plated brass                    |
| Peças restantes      | CR, stainless steel                    |

## Nota

## Descrição

This water regulator is designed as a single-acting diaphragm regulator for installation in any water pipe system. It supplies a precise output value regardless of the input pressure. Since the pressure is preset in the factory and cannot be altered, the product is also tamper-proof. The regulator protects all downstream devices and components in the water pipe by maintaining a required constant pressure and preventing system pressure fluctuations. In combination with a nozzle, it is ideally suited for cooling or cleaning with water spray or mist.

## Artigo

| Descrição      | Rosca | Pressão de trabalho predefinida | A<br>(mm) | B       | SW<br>(mm) |
|----------------|-------|---------------------------------|-----------|---------|------------|
| K- 07 25 03 06 | G 1/4 | 1 bar                           | 34,0      | 51,0 mm | 17         |
| K- 07 25 03 07 | G 1/4 | 2 bar                           | 34,0      | 51,0 mm | 17         |
| K- 07 25 03 08 | G 1/4 | 3 bar                           | 34,0      | 51,0 mm | 17         |
| K- 07 25 03 09 | G 1/4 | 4 bar                           | 34,0      | 51,0 mm | 17         |
