

**Caracteristici**

Tip constructiv	Raclor
Viteză de alunecare max.	0,5 m/s
Temperatură min.	-30 °C
Temperatură max.	100 °C
Medii	Uleiuri minerale Emulsii de apă
Montaj	se presează într-un nut deschis
Material	(1) Manșon: oțel (2) Raclor: 90° Shore A NBR
Utilizare	Instalație hidrolică

Toleranz / Tolerance		
d	D	L
h11	H8	+0,20 0

**Descriere**

Necesar de spațiu redus  
Fără pătrunderea particulelor murdare prin inelul exterior metalic.  
Soluție simplă.

**Indicații referitoare comandă**

Dacă se utilizează în condiții de lucru speciale (lichid, temperatură, presiune...), vă rugăm să ne contactați.  
Alt material posibil: FPM.
