

Caracteristici

| | |
|--------------------------|---|
| Tip constructiv | Raclor |
| Viteză de alunecare max. | 0,5 m/s |
| Temperatură min. | -30 °C |
| Temperatură max. | 100 °C |
| Medii | Uleiuri minerale Emulsii de apă |
| Montaj | se presează într-un nut deschis |
| Material | (1) Manșon: oțel (2) Raclor: 90° Shore A NBR |
| Utilizare | Instalație hidrolică |

| Toleranz / Tolerance | | |
