

**Caracteristici**

|                                 |   |
|---------------------------------|---|
| <b>Tip constructiv</b>          | Raclor  |
| <b>Viteză de alunecare max.</b> | 0,5 m/s   |
| <b>Temperatură min.</b>         | -30 °C  |
| <b>Temperatură max.</b>         | 100 °C  |
| <b>Medii</b>                    | Uleiuri minerale<br>Emulsii de apă              |
| <b>Montaj</b>                   | se presează într-un nut deschis                 |
| <b>Material</b>                 | (1) Manșon: oțel<br>(2) Raclor: 90° Shore A NBR |
| <b>Utilizare</b>                | Instalație hidraulică                           |

**Descriere**

Necesar de spațiu redus

Fără pătrunderea particulelor murdare prin inelul exterior metalic.

Soluție simplă.

**Indicații referitoare comandă**

Dacă se utilizează în condiții de lucru speciale (lichid, temperatură, presiune...), vă rugăm să ne contactați.

Alt material posibil: FPM.
