# K-KOMPAKTEJEKTOREN CP SYST

Compact ejectors »CP«, system monitoring function: digital vacuum switch

## Caracteristici

| | |
|---|---|
| **Caracteristici** | Vacuum generator with integrated control valves and system monitoring functions<br>Gripping and blowing off can be controlled without the need for external valves<br>Optimised air consumption thanks to many models with differing suction capacities<br>Minimum energy costs in continuous operation thanks to automatic air-saving<br>Easy adjustment with foil keypad and LED display of the settings |
| **Utilizare** | Handling of air-tight or slightly porous workpieces in fully automated handling systems<br>e.g. in the robotics, automotive, packaging, electronics, electrical engineering and metalworking industries |
| **Corp de bază** | Anodised aluminium |
| **Integrat** | NC blow-off valve, filter, silencer, non-return valve |

## Indicaţie

Mini-sensor with housing and connection cable, analogue or digital output signal. Minimum size and low weight combined with high measuring accuracy. Alte date sunt disponibile la cerere.

## Descriere

Purely pneumatic vacuum ejector that operates on the Venturi principle. Compressed air enters the ejector at A and flows through the nozzle B. This results in a vacuum immediately behind the nozzle outlet, and air is drawn in through the vacuum inlet D. This air and the driving air leave the ejector via the silencer C.

## Informaţii suplimentare

Important: Order two connection plugs per ejector. A cable set is included with the compact ejector with automatic air-saving.

## Articol

## Accesorii

| | |
|---|---|
| **K-ANSCH KABEL VAKUUMSCHAL** | Connection cable for vacuum switch |
| **K-ERSATZSCHALLDAEMPFER 2** | Replacement silencers |
| **K-ERSATZFILTERELEMENTE** | Replacement filter element |
