

# K-AN 301-72

Lock AN 301-72

**HANSA FLEX**

## Caracteristici

|                          |                                 |
|--------------------------|---------------------------------|
| Utilizare                | Tube and surface seal with PTFE |
| Rezistență               | Medium strength                 |
| Viscozitate              | High viscosity                  |
| Rezistent la temperatură | -60 °C to +200 °C               |
| Standard                 | acc. to DVGW-rules              |

## Indicație

Alte date sunt disponibile la cerere.

## Descriere

Non-classified adhesive for sensitive production areas. Thermal stability: -60 °C to +200 °C- Very good strength- Good chemical resistance after curing- High level of safety and health at work- No irritation to eyes, nose or throat- DVGW certified, also suitable for use in the food, pharmaceutical and cosmetics industries- No marking with hazard symbols in accordance with EC Regulation No. 1907/2006 - ISO 11014-1

## Articol
