Pressure gauges (CrNi steel type / safety housing)

**HANSA FLEX**

## Свойства

Тип	232.30
Исполнение	Bourdon-tube pressure gauge, CrNi steel type, with solid baffle wall and blow-out (safety housing)
Применение	For gaseous or liquid, corrosive and crystallising mediawhich do not have high viscosity, also in corrosive atmosphere
Класс качества	1,6 (Ø 63 mm), 1,0 (Ø 100 mm)
Температура среды	max. +200 °C
Температура окружающей среды	-40 °C to +60 °C
Корпус	CrNi steel
Смотровое стекло	Laminated safety glass Ø 63 = Polycarbonate

## Указание

Прочие данные только по запросу.

## Описание

Safety version with more fracture-resistant separating wall
