

K-MANO ABSPH MUF ZAPF

Pressure gauge stopcocks, female - male

HANSA FLEX

Свойства

| | |
|--------------------|-------------------------------------------------------------------------------------------------|
| Применение | For all pressure gauges with a flat gasket acc. to DIN 16258 |
| Диапазон давлений | Max. 16 bar, depending on the variant Pressure gauge valves should be used for higher pressures |
| Температура | Max. +50 °C |
| Корпус | Brass with a bare metal surface or stainless steel 1.4571 |
| Ручка | Plastic |
| Контрольный фланец | - |

Описание

It is useful to install a stopcock as a shut-off element between the pressure gauge and the pipe. When the lever is set to the »blow out« position, the medium is discharged into the atmosphere. Stopcocks with a test port allow pressure gauges to be simultaneously connected to the pipe.
