

K-BALGGREIFER 2,5 SILIKON

Bellows suction pads, round, 2.5 folds, material silicone

HANSA FLEX

Свойства

Свойства	Soft, flexible folds Soft, tapered sealing lips Support surfaces on the bottom high suction power optimum damping effect very good adaptation to curved or uneven material
----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Область применения	Handling of highly uneven parts (e.g.tubes) Handling of highly sensitive parts
--------------------	-----------------------------------------------------------------------------------

Указание

Mini-sensor with housing and connection cable, analogue or digital output signal. Minimum size and low weight combined with high measuring accuracy.
Прочие данные только по запросу.

Описание

Robust and hard-wearing suction pad with a single sealing lip. Used wherever objects (parts, packing materials, etc.) need to be lifted, transported, turned over or handled in some other manner. It is also ideal when it is necessary to compensate varying workpiece heights or uneven surfaces or to handle easily damaged parts. It acts as the connecting element between the vacuum generator and the workpiece.

Дополнительная информация

Attention: The price does not include connection nipples. Please order separately.
