

Свойства

| | |
|---------------------|------------------------|
| Рабочее давление | 0.5 - 60 bar |
| Рабочая температура | max. 180 °C |
| Уплотнения | FKM |
| Пружина | Stainless steel 1.4310 |
| Корпус | Stainless steel 1.4305 |

Указание

G thread acc. to DIN EN ISO 228-1, with ISO flange plate (acc. to ISO 5211)

Прочие данные только по запросу.

Описание

Manual adjustment of the blow-off pressure (lock nut).

Указания по заказу

For use on devices that have to be vented whenever they are turned off, either because of safety regulations or for technical reasons. The pneumatic devices are disconnected from the system and simultaneously vented each time they are shut off.

Дополнительная информация

These blow-off valves can also be supplied with a fixed setting and a TÜV type test number. Please ask for an offer.
