## Popis

Diaphragm pressure regulators with self-relieving design for mounting side by side. The pressure setting can be locked by pushing the knob down. <br>By assembling two or more controllers together, it is possible to supply several working air circuits with different output pressures via a single supply line.

## Pokyny pre objednanie

The port for the output pressure (P2) is on the rear! K-07250031: G 1/4, K-07250034: G 1/2. Lockable pressure regulators K-07250030 available on request.
