

# K-W TUE VB PP

Union elbows

**HANSA FLEX**

## Vlastnosti

|                     |                    |
|---------------------|--------------------|
| Pracovný tlak       | on request         |
| Prevádzková teplota | Max. +20 °C        |
| Materiál            | Polypropylene (PP) |
| Tesniaci materiál   | NBR                |

## Poznámka

Ďalšie údaje na vyžiadanie.

## Popis

Lightweight, push-in fittings distinguished by high strength, toughness, resistance to abrasion and impact resistance - ideal for a wide range of applications. Plastic and metal tubes are connected together quickly and easily. Suitable for compressed air or liquids, with good resistance to a large number of chemicals.

## Výrobok
