Opis

Diaphragm pressure regulators with self-relieving design for mounting side by side. The pressure setting can be locked by pushing the button down.
By assembling two or more controllers together, it is possible to supply several working air circuits with different output pressures via a single supply line.

Navodila za naročanje

The port for the output pressure (P2) is on the rear! K-07250028: G 1/8. Lockable pressure regulator: K-07250027. If several devices in the »multifix-mini« Series are assembled together, the maximum working pressure is 12 bar.
