pretok 25 l/min (at 5 bar)

ohišje Brass with a bare metal surface

vložek ventila chromium steel

gumijasti ovoj EPDM

Navodilo

Drugi podatki na zahtevo.

Opis

Ideal for cleaning in industry and manual trades. The thick rubber coating provides thermal insulation for the hot or cold water flowing inside as well as impact protection. The flow rate is controllable with the adjustment screw (using a coin). The steel shackle allows the lever to be latched for extended use. Also suitable for drinking water.
