

## Osobine

|                        |  |
|------------------------|--|
| Oblast primene         | opšta primena za vazduh, vodu itd.   |
| Posebne karakteristike | Tvrdoća: oko 77° Shore A<br>ekološki bez teških metala<br>otporan na habanje i starenje<br>spremno za sterilizaciju<br>trajna transparentnost<br>veoma fleksibilno |
| Pogled iznutra         | mekani PVC   |
| Umetak                 | pleteni umetak od tekstila   |
| spoljni izgled         | mekani PVC   |
| Boja                   | jasno  |
| Temperatura min.       | -5 °C  |
| Temperatura max.       | 60 °C  |
| Mediji                 | voda<br>Vazduh   |
