# **SECTION 2: Hazards identification**

## 2.1. Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 [CLP/GHS]

| Hazard classes and Hazard categories | Hazard Statements Classification procedure |
|--------------------------------------|--|
| Skin Irrit. 2                        | H315                                       |
| Eye Dam. 1                           | H318                                       |
|                                      |  |

## **Hazard Statements**

H315Causes skin irritation.H318Causes serious eye damage.

## 2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008 [CLP/GHS]

Signal word Danger

# **Hazard Statements**

| H315 | Causes skin irritation.    |
|------|----------------------------|
| H318 | Causes serious eye damage. |

#### **Precautionary Statements** P102 Keep out of reach of children. P264 Wash hands thoroughly after handling. P280 Wear protective gloves/protective clothing/eye protection/face protection. P302 + P352 IF ON SKIN: Wash with plenty of soap and water. P305 + P351 + IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P338 Immediately call a POISON CENTER or doctor/physician. P310 P332 + P313 If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing. P362 P501 Dispose of contents/container to hazardous or special waste collection point.

## Hazardous ingredients for labeling

calcium hydroxide

#### 2.3. Other hazards

### Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

# **SECTION 3: Composition/ information on ingredients**

## 3.1. Substances

not applicable

## 3.2. Mixtures

## Description

Mixture of inorganic thickener in mineral oil with additives.

#### Hazardous ingredients

| CAS No    | EC No     | Name              | [%<br>weight] | Classification according to Regulation (EC)<br>No 1272/2008 [CLP/GHS] |
|-----------|-----------|-------------------|---------------|---|
| 1305-62-0 | 215-137-3 | calcium hydroxide | 10 - 25       | Eye Dam. 1, H318 / Skin Irrit. 2, H315 / STOT<br>SE 3, H335           |

# **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

#### **General information**

Remove moisted clothing immediately.

#### In case of inhalation

Remove the casualty into fresh air and keep him immobile. In the event of symptoms refer for medical treatment.

#### In case of skin contact

In case of contact with skin wash off with soap and water. Consult a doctor if skin irritation persists.

#### In case of eye contact

In case of contact with eyes rinsing with plenty of lukewarm water carefully and seek for medical treatment.

#### In case of ingestion

Refer to medical treatment.

**4.2. Most important symptoms and effects, both acute and delayed** No information available.

**4.3. Indication of any immediate medical attention and special treatment needed** No information available.

# **SECTION 5: Firefighting measures**

## 5.1. Extinguishing media

Suitable extinguishing media

Alcohol-resistant foam Dry fire-extinguishing substance Carbon dioxide Water spray jet

Unsuitable extinguishing media Full water jet

## 5.2. Special hazards arising from the substance or mixture

In case of fire formation of dangerous gases possible. Carbon monoxide (CO) Carbon dioxide (CO2) Sulphur dioxide (SO2)

#### 5.3. Advice for firefighters

#### Special protective equipment for fire-fighters

Fire-fighting operations, rescue and clearing work under effect of combustion and smoulder gases just may be done with breathing apparatus.

Do not inhale explosion and/or combustion gases.

## Additional information

Collect contaminated firefighting water separately, must not be discharged into the drains.

# **SECTION 6: Accidental release measures**

## 6.1. Personal precautions, protective equipment and emergency procedures

## For non-emergency personnel

Use personal protective clothing. Use breathing apparatus if exposed to vapours/dust/aerosol. High risk of slipping due to leakage/spillage of product.

### 6.2. Environmental precautions

Do not discharge into the drains/surface waters/groundwater.

#### 6.3. Methods and material for containment and cleaning up

Take up mechanically and send for disposal.

## 6.4. Reference to other sections

Safe handling: see section 7 Disposal: see section 13 Personal protection equipment: see section 8

## **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

#### Advice on safe handling

No special measures necessary if used correctly.

## **General protective measures**

Do not inhale vapours. Avoid contact with eyes and skin

#### Hygiene measures

At work do not eat, drink and smoke. Wash hands before breaks and after work.

#### Advice on protection against fire and explosion

No special measures necessary.

**7.2. Conditions for safe storage, including any incompatibilities Requirements for storage rooms and vessels** Keep in closed original container.

## Advice on storage compatibility

Do not store together with acids. Do not store together with oxidizing agents.

#### **Further information on storage conditions** Recommended storage temperature: room temperature.

7.3. Specific end use(s) Recommendation(s) for intended use See section 1.2

## **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

Ingredients with occupational exposure limits to be monitored

| CAS No    | Name              | Code    | [mg/m3] [ppm] | Remark    |
|-----------|-------------------|---------|---------------|-----------|
| 1305-62-0 | Calcium hydroxide | 8 hours | 5             | EH40/2005 |

#### Additional advice

The statutory local and national regulations have to be observed.

### 8.2. Exposure controls Respiratory protection Not required

#### Hand protection

In the cases of special applications, it is recommended to check the chemical resistance with the manufacturer of the gloves.

Glove material specification [make/type, thickness, permeation time/life, wetting resistance]:: Nitrile rubber; 0,4mm; 480min;60min.

Chemical protective gloves must be chosen carefully in view of their design and depending on the dependence on the concentration and amounts of dangerous goods used in the specific working tasks.

Eye protection tightly fitting goggles

Other protection measures protective clothing

**Appropriate engineering controls** Sufficient ventilation and exhaustion.

**Oxidising properties** No information available.

# Explosive properties not determined

**9.2. Other information** No information available.

# **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

No information available.

#### **10.2. Chemical stability** No information available.

#### 10.3. Possibility of hazardous reactions

Reactions with strong acids. Reactions with strong oxidising agents.

# **10.4. Conditions to avoid** Keep away from heat.

## 10.5. Incompatible materials

**Substances to avoid** Reactions with strong acids. Reactions with strong oxidising agents.

## 10.6. Hazardous decomposition products

Hydrogen sulphides

## Thermal decomposition

Remark No decomposition if used as directed.

# **SECTION 11: Toxicological information**

#### 11.1. Information on toxicological effects

## Acute toxicity/Irritation/Sensitization

|                       | Value/Validation                          | Species | Method | Remark     |

## 12.3. Bioaccumulative potential

The product has not been tested. Because of the product's consistency and low solubility in water bioavailability is not likely.

#### 12.4. Mobility in soil

No information available.

## 12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 12.6. Other adverse effects

### General regulation

Do not allow uncontrolled leakage of product into the environment.

Product is not allowed to be discharged into the ground water or aquatic environment.

Product is not allowed to be discharged into aquatic environment, drains or sewage treatment plants.

The ecotoxic effect of the product has not been tested. The information on this is given on the basis of details in the literature.

## **SECTION 13: Disposal considerations**

## 13.1. Waste treatment methods

## **Recommendations for the product**

Remove in accordance with local official regulations.

## **Recommendations for packaging**

Dispose of according to the local waste regulations.

#### **General information**

Assignment to a waste code number / waste identification according to the EWC is to be carried out on a sector or process-specific basis.

# **SECTION 14: Transport information**

|                                     | ADR/RID | IMDG | IATA-DGR |

#### 14.6. Special precautions for user

No information available.

# 14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code not applicable

**Transport/further information** No dangerous goods as defined by the transport regulations - ADR/RID, IMDG, ICAO/IATA-DGR.

# **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

VOC standard VOC content 0 %

## 15.2. Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

# **SECTION 16: Other information**

### **Recommended uses and restrictions**

National and local regulations concerning chemicals shall be observed. For industrial use only.

#### **Further information**

Each user is responsible for the implementation of the national special regulations. The information contained herein is based on the state of our knowledge. It characterizes the product with regard to the appropriate safety precautions. It does not represent a guarantee of the properties of the product.

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) Printed 13.02.2017 revision 08.12.2016 (GB) Version 8.3 Assambly Paste 450 white

Please observe the following disclaimer! --- Our safety data sheets have been compiled according to effective EUdirectives, WITHOUT taking into account the special national directives concerning the handling of hazardous substances.

- H315 Causes skin irritation.
- H318 Causes serious eye damage.
- H335 May cause respiratory irritation.
