

K-KONDENSA DRUKODRAIN PLUS

Drain for compressed air condensate

HANSA FLEX

属性

过滤器连接功率	100 m ³ /min
压缩机连接功率	10 m ³ /min
干燥器连接功率	20 m ³ /min

提示

其它数据应客户要求提供。

描述

Compact and exceptionally reliable, level-controlled drain for compressed air condensate. The condensate enters the integrated collecting tank, in which the level is continuously monitored. When the condensate reaches the maximum mark, the pilot valve opens and the condensate is forced into the discharge line by the system pressure. The valve closes again when the level reaches the minimum mark. Benefits of »drukodrain plus«: No pressure loss, Diaphragm protected by integrated cup filter, Test button for manual outlet, Auto-reset function, Suitable for all condensate types.

订购指南

The following voltages on request: 24 VDC, 24 VAC DC, 24 VAC / 50 Hz, 110 VAC / 50 Hz, 115 V / 50 Hz
